

# Referrals

Jerry Epping

8-3-11

"I want to thank you for the great job you did on our patio path. My husband suffered a spinal cord injury early this year and cannot walk. He could no longer get to our backyard or patio area because his power wheel chair would not run over the lawn. We gave Jerry a rough idea of what was needed, and he came up with a drawing that looked okay. The guys completed the job in about three days, and Wow! The finished product is amazing. The new path is more than just a walkway, there are special little seating areas, and areas to just stop and look over the yard and patio."

"Thank you! We love the bushes you planted and the work you did! I have already referred you to two of my patients!"

-Sherry Pray
