

April 27, 2018

Dear Mr. Epping,

My wife and I recently had some landscaping work done by your company, Breezy Hill Nursery, at our home in Hales Corners. We had a landscaping plan drawn up and we were shopping around for the "right" landscaper to take on our project. At the Home Show in February, our contractor who renovated our home (Nehmey Construction) recommended your company.

Shortly after the Home Show we were contacted by Dan Hitzeman and then met a few days later. He reviewed our plan and we discussed options to keep the price within our budget. Dan then provided several design options and we selected the one that best suited our needs. On Monday, 23 April, Dan and the team of Tony Aguero, Claudio Cruz and Jake Gritzner began the project. I must say that after four hard days of work, your team transformed an old outdated front yard into one that far exceeded our expectations. Three of our neighbors even commented on how well the transformation came out. Our favorite part of the project has to be the beautiful paver walkway that replaced the old concrete sidewalk. Dan's design coupled with the superb installation by Tony, Claudio and Jake was spectacular. Each step of the way the team strived to ensure we were happy with the layout and work performed. Honestly, it's hard to believe the amazing transformation that took place in only four days.

Thank you and please pass on our appreciation to Dan, Tony, Claudio and Jake for an incredibly well done project.
